Missy Wryn Re-Opens the Barn Doors to an Equine Experience
For Special Needs Children & Adults

Missy's two horses Paco & Benny are the best in their field assisting children and adults connecting body awareness, mindfulness and teaching healthy boundaries while empowering and building confidence.

Missy works with children & adults who experience ADHD, Autism, Tourettes, PTSD and other conditions from neuro-trauma, accidents and disease.

Research shows working with and riding a horse assists with neuro-physical and neuro-emotional coordination while deepening confidence and trust for children and adults alike.
